Call us today to find out how to save time & money

Labour hire supports our host employer.

Perth C & J apprentice Corry Glossop was unhosted late October 2016 due to the work down turn. He was not able to be rehoused until early December when a labouring position became available through ATC Employment Solutions at Fleetwood Pty Ltd. This position was to be a short term job but once Corry started and showed Fleetwood that he was keen and a good worker Fleetwood decided to keep him on. During this time Corry was asked to assist 2 of Fleetwood 's C & J contractors David Lewis and David Smith. The 2 Dave's were very impressed with Corry and they approached ATC to see if it would be possible for them to jointly host Corry so that he could have a chance to complete his apprenticeship. All of the necessary paperwork was completed and Corry was rehoused back into his apprenticeship on 1/02/2017. Dave and Dave have said that they are very happy with Corry and the decision that they made to take Corry on.

A unique solution helps two clients.

Our Perth branch had been working with an employer who was seeking a trade qualified electrician for a 3 week period. At the time ATC could not source a candidate for this client, in the meantime one of our Bunbury field officers was talking to an Electrical employer who employs his son but was concerned about the amount of work he had scheduled. A quick decision identified that the son was prepared to move to Perth, and we were able to help two customers with one solution.

By using ATC for your employment needs whether it is group training or labour hire you are guaranteed to have a team of dedicated field offices that will get you the best outcome for your business

New support for our customers.

The Apprentice & Traineeship Company are pleased to offer our customers a new service. We now provide training for working at heights and confined space. The decision was made to purchase a fully mobile unit after a need by our clients was identified.

Training is offered at our Bunbury Skills Centre or we are able to deliver these two courses on site at the clients premises.

The fully mobile unit gives us the ability to be responsive to our clients needs and deliver training when it is needed.

NOW AVAILABLE

ATC are now delivering training in Working at Heights & Confined Space.

We have the ability to train on site or at our premises with our mobile unit.
